

PROJECT DESCRIPTION:-

XYZ is an ads airing company, which telecast advertisements in tv's. This company's mainly run with marketing towards the ad's. Here we have a dataset with different TV Airing Brands, their product, their category. Dataset includes the network through which Ads are airing, types of network like Cable/ Broadcast and the show name also on which Ads got aired. You can also see the data of Dayparts, Time zone and the time & date at which Ads got aired. IT also includes other data like Pod Position (the lesser the valuable), duration for which Ads aired on screen, Equivalent sales &, total amount spent on the Ads aired.

APPROACH:-

My First Approach Was to Analyse the Dataset and understand the dataset. Clean the Dataset Finding the Blanks and Null Values and Manipulate it. After These I Used Pivot Tables and Pivot Charts to Visualise the Data. Insights Were Drawn Based on My Understanding.

TECH-STACKED USED:-

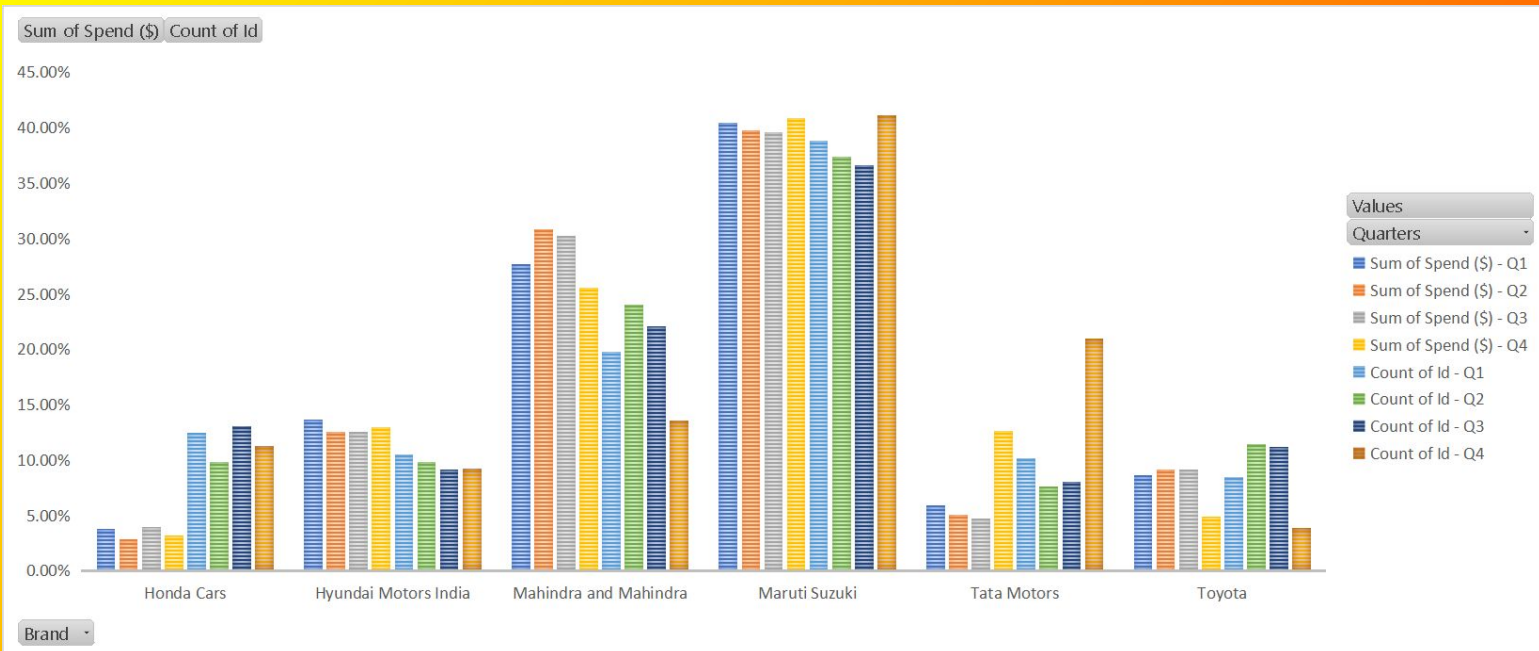

WPS Office is used to execute the dataset and WPS Powerpoint to make the project pptx.

INSIGHTS:-

- We can clean, manipulate, analyse and visualize the data using WPS Office. There are many functions and formulas, which we can use during project. We can also Insert Pivot Tables and Pivot Charts.
- The data are combined together in a pivot table for the insights and visualize it in pivot chart.

2. What is the share of various brands in TV airings and how has it changed from Q1 to Q4 in 2021?

Result:- Here the groups are nothing but the Quarters of months. There are 4 quarters and each Quarter consists 3 months. Almost in all the quarters, Maruti Suzuki has highest share. In all quarters, the 1st Quarter has highest share and decreased in quarter 4.

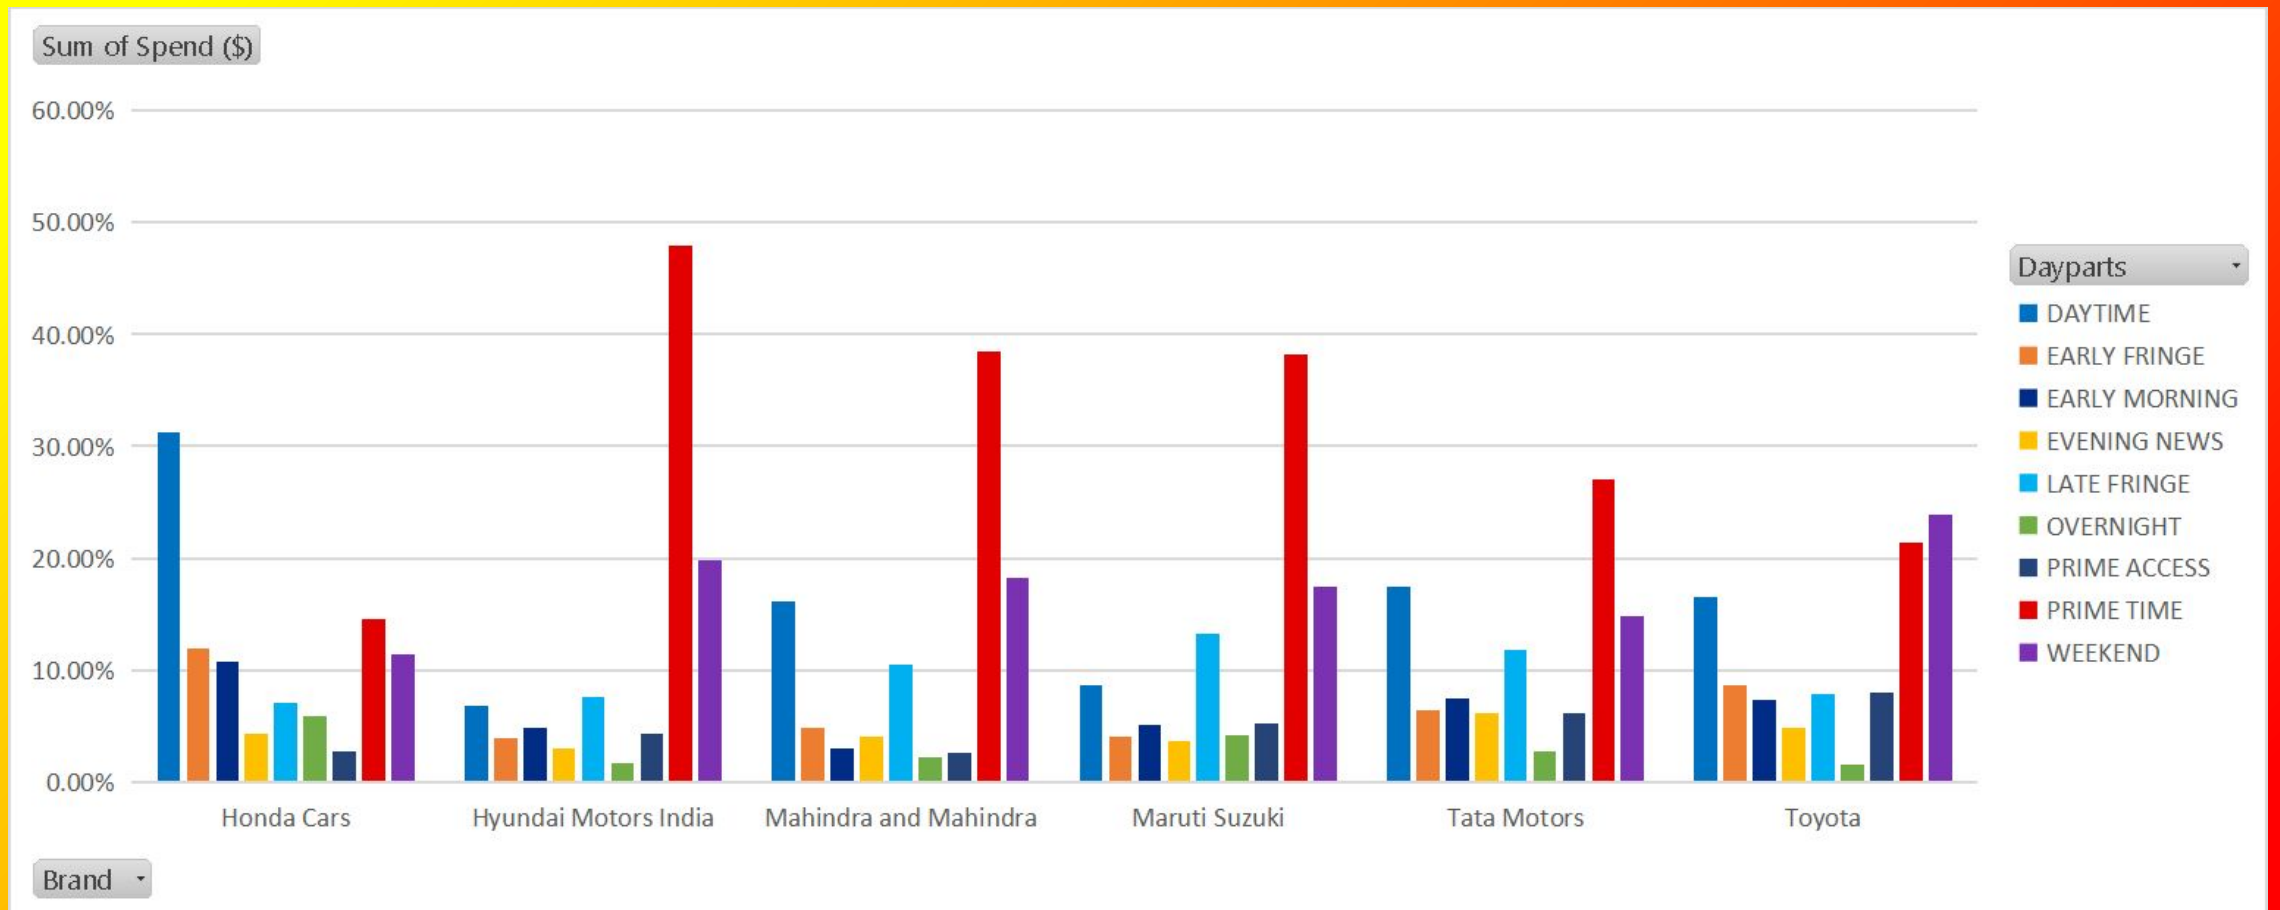

[illegible]

3. Conduct a competitive analysis for the brands and define advertisement strategy of different brands and how it differs across the brands.

Result:- In this Competitive Analysis, every one have unique idea. In this analysis, Columns- Dayparts, Rows- Brand, Values- Sum of Spend. Here almost all the brands advertise their products in all the Day Parts. But Honda Cars advertise their products in all their daytime. So Equivalent Sales are higher for this Brand.

Graph of Question no.3

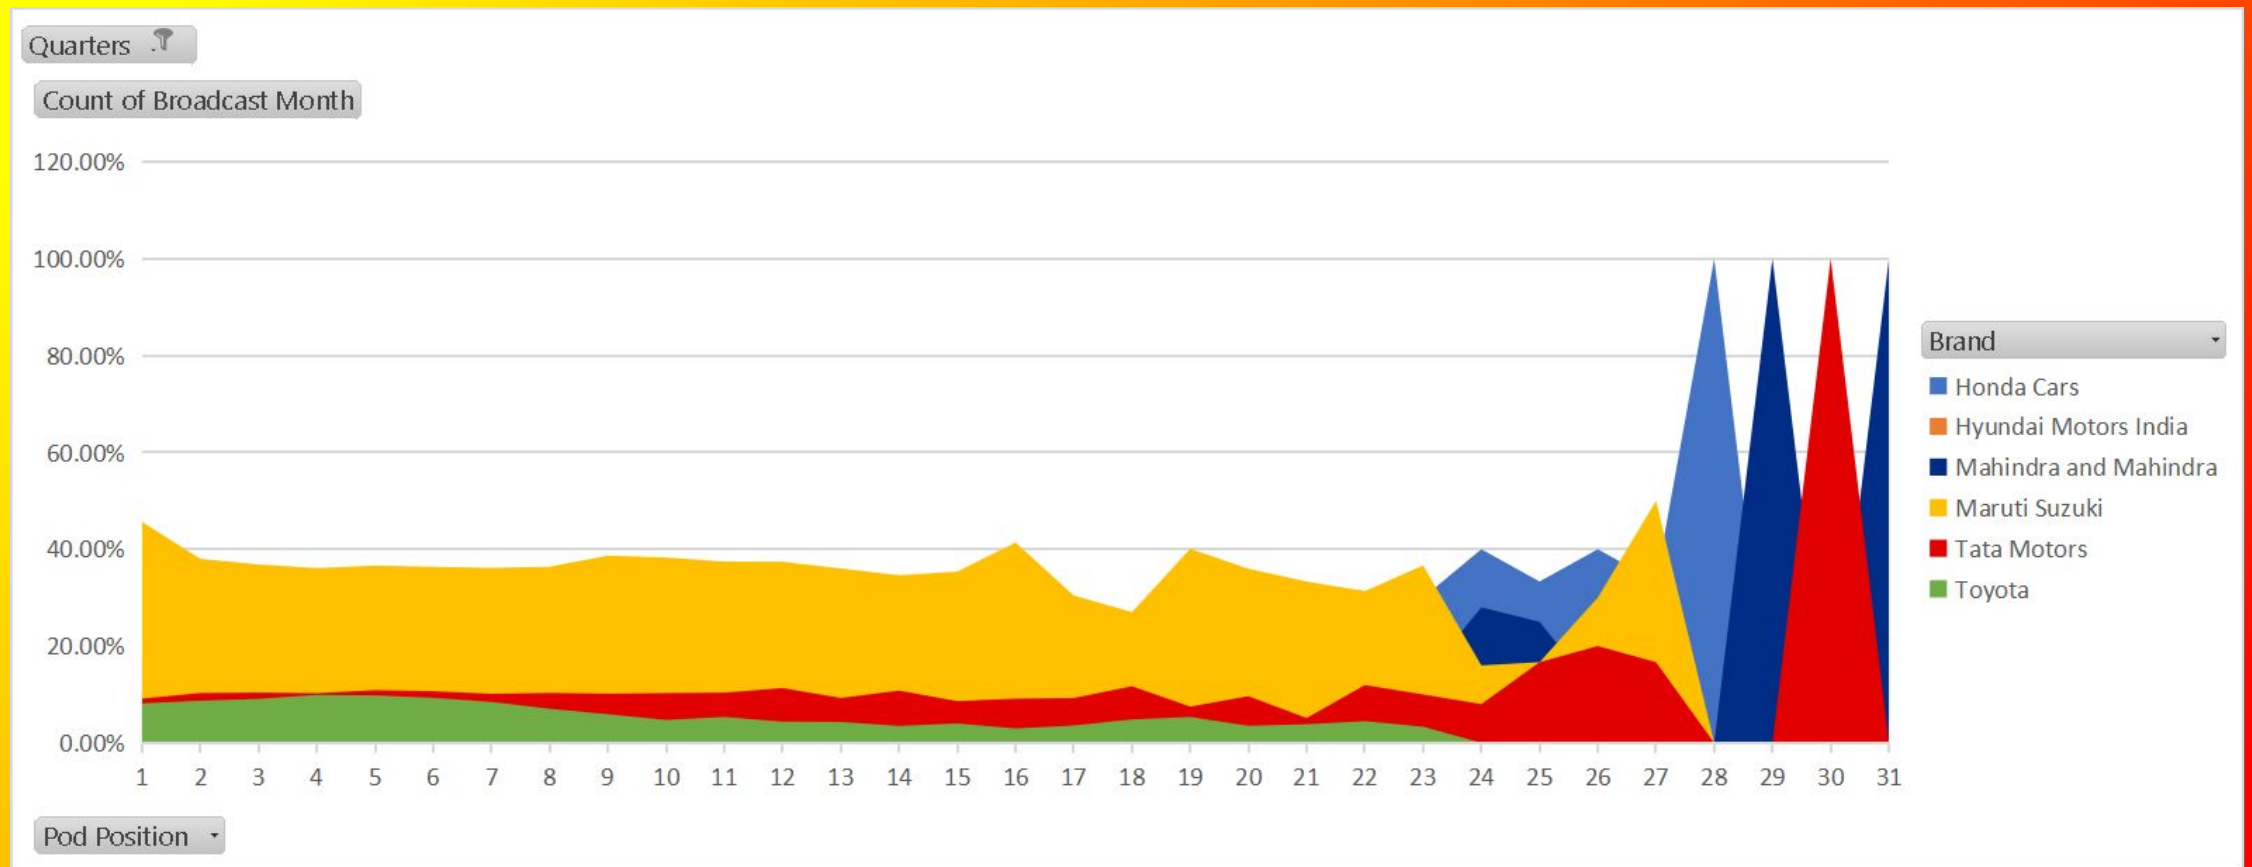

4. Mahindra and Mahindra wants to run a digital ad campaign to complement its existing TV ads in Q1 of 2022. Based on the data from 2021, suggest a media plan to the CMO of Mahindra and Mahindra. Which audience should they target?

Result:- Here I have converted Broadcast month into quarters using IF-OR Formula. After then, Quarters, Brands and Pod Position are insert into the pivot table. In pivot table, Pod position as a **row**, Brand as a **column**, Quarters as a **Filter--Q1**, Broadcast Month as a **count of Broadcast** Month.

- 1.We can see Maruti Brand Hits highest and Valuable Position.
- 2.In last year we have seen that we have spend majority of our money telecasting during prime time, but we want to show more visibility to our advertisement
- 3.Mahindra and Mahindra company should telecast and use all day parts for advertising, so that it will be a good growth for them in the year 2023.

	A	B	C	D	E	F	G	H	I	J	K
1	Sum of Spend (\$)	Dayparts									
2	Brand	DAYTIME	EARLY FRINGE	EARLY MORNING	EVENING NEWS	LATE FRINGE	OVERNIGHT	PRIME ACCESS	PRIME TIME	WEEKEND	Grand Total
3	Mahindra and Mahindra	16.15%	4.83%	3.05%	4.03%	10.52%	2.16%	2.59%	38.44%	18.23%	100.00%
4	Grand Total	16.15%	4.83%	3.05%	4.03%	10.52%	2.16%	2.59%	38.44%	18.23%	100.00%

Graph of Question no.4a

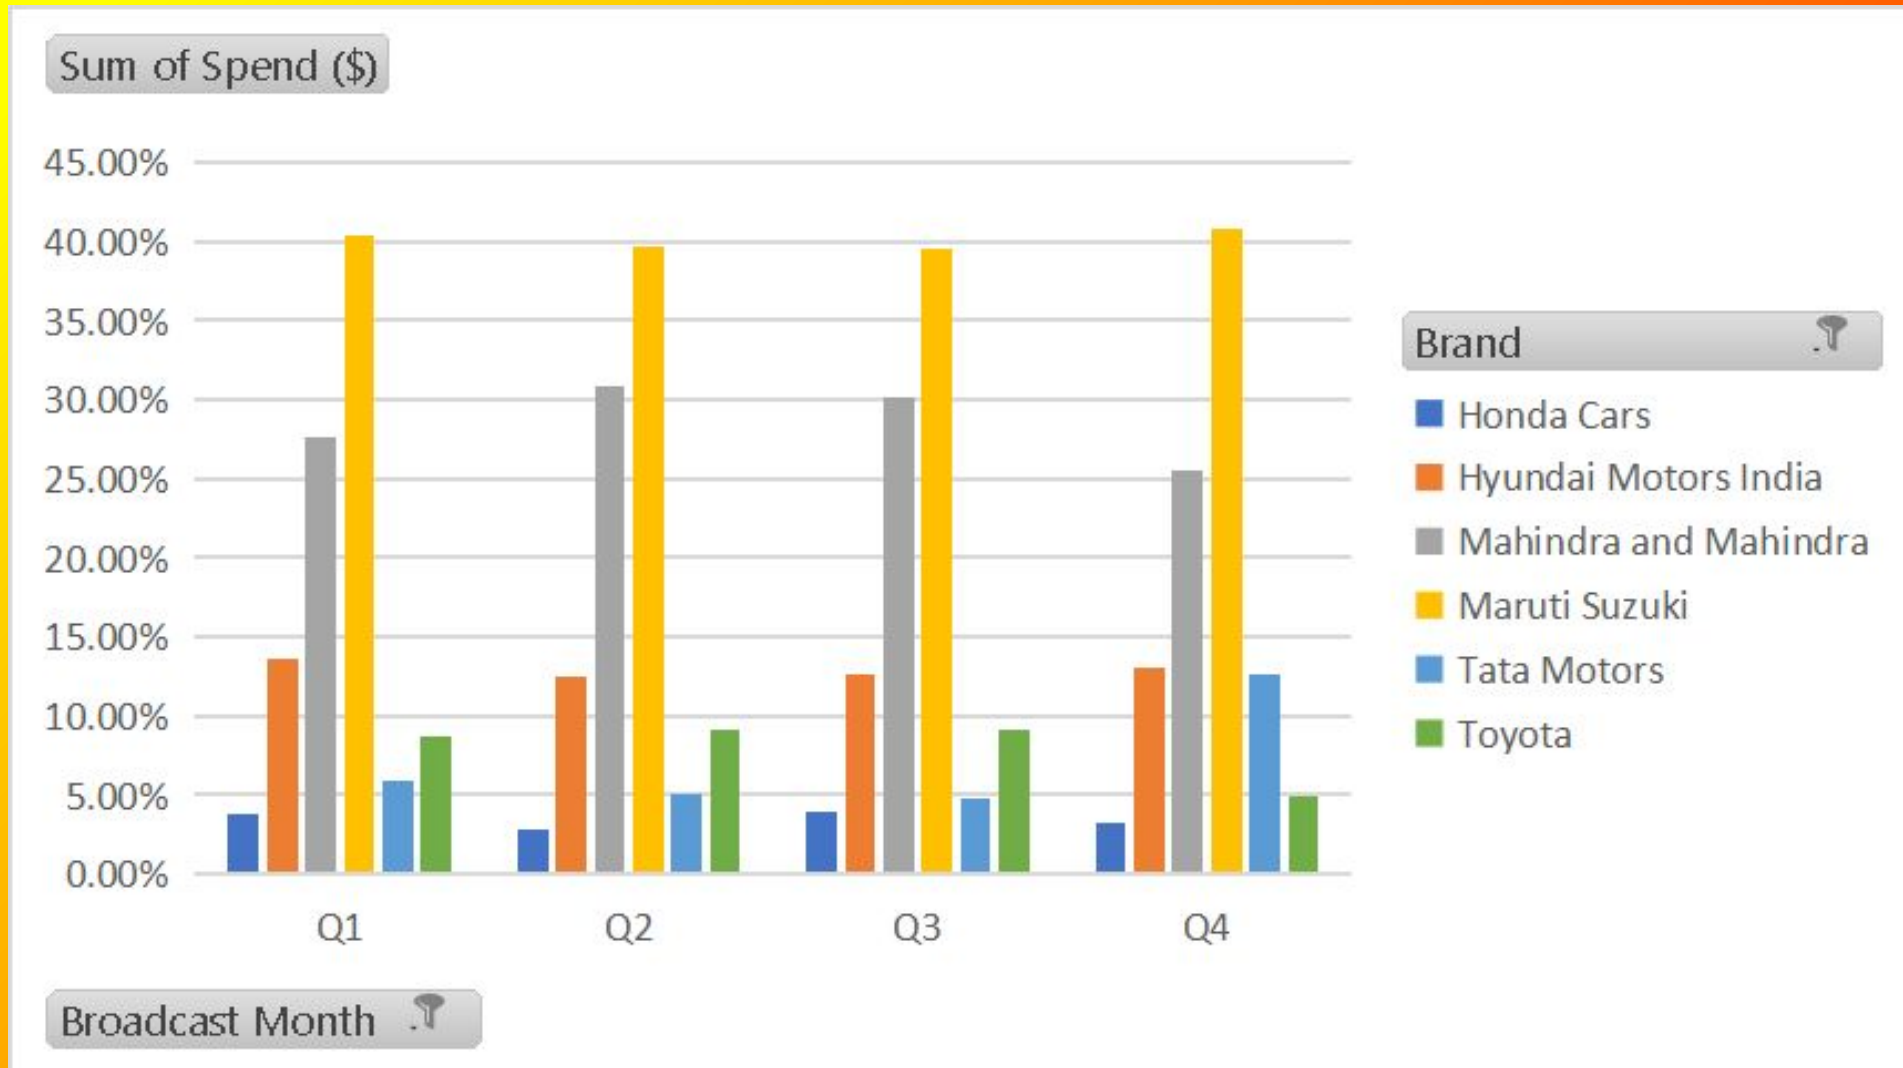

~ Additional Insights from the Ads data given

5. How much amount did the brand spend for the advertisements quarter wise 0?

Result:- Here, The brand Maruti Suzuki spend equally in all Quarters. Other Brands have fall and rise in all the quarters. The second which maintained medium level balance is Mahindra and Mahindra.

	A	B	C	D	E	F	G	H
1	Sum of Spend (\$)	Column Labels						
2	Row Labels	Honda Cars	Hyundai Motors India	Mahindra and Mahindra	Maruti Suzuki	Tata Motors	Toyota	Grand Total
3	Q1	3.80%	13.62%	27.63%	40.39%	5.92%	8.64%	100.00%
4	Q2	2.82%	12.51%	30.84%	39.71%	5.01%	9.12%	100.00%
5	Q3	3.90%	12.55%	30.18%	39.53%	4.72%	9.13%	100.00%
6	Q4	3.18%	12.97%	25.57%	40.80%	12.60%	4.89%	100.00%
7	Grand Total	3.47%	12.98%	28.53%	40.12%	6.81%	8.09%	100.00%
